

Our Mission

Our mission is to provide vocational and educational opportunities to eliminate barriers to employment, strengthen communities and help people in need reach their full potential through the power of work.

Our Vision

We envision a world where people have the opportunity to reach their highest potential. We believe that every individual has value and by recognizing that value, we can help them find their place in the community. In order to make this belief a reality, we will position ourselves as the premier provider of workforce services.

Our Values

- We believe in the inherent value of work; work has greater value than charity.
- We believe that every individual has the right to be treated with dignity and respect.
- We value an environment that encourages the people we serve to reach their highest potential.
- We value social, financial, and environmental stewardship.
